CHAMPION STUDIOS, keeping in their fine tradition, offer, in this issue, more of the distinguished photography seen by the leading physical culturists of our time. The vivid, husky work of the camera in action, capturing, for the Artist and Student, the truth of movement, coordination, and physical development of the youth of today.

The following pages of these sensational culturists and models, exquisite as they are, are but a small selection of the dynamic photographs available from the cameras and laboratories of CHAMPION STUDIOS.

The quality of BIG is further maintained by the lively information found in our featured articles, Health Aids and Physical Development Instructions.

THEM'S physique studies of handsome 20-year-old, dark eyed, Greek Islander, NIKOS MAKROS, should stir artists and body-culturists alike to new heights of inspiration. Nikos has a personality as warm and as classically cut as his sunbathed native land of Paros. His entire body virtually feeds on fresh air and sun while Nikos works the heavy fishnets and oars of his boat.
